

CSWIP VISUAL TESTING (VT)

Is it for me?

Ideal preparation for inspection engineers, technicians, NDT operators or surveyors who require a knowledge of visual inspection techniques, an understanding of likely problem areas and an appreciation of inspection methodology.

What will I learn?

Introduction to visual inspection; fundamentals of vision and light; introduction to NDT; visual inspection equipment; factors influencing visual inspection; product technology (welding, casting, forging etc.); practical inspection methodology; inspection, weld repair and heat treatment requirements.

The course ends with the certification examination.

Training in accordance with the requirements of BS EN ISO 9712.

What will I leave with?

By the end of the course you should be able to:

- To outline the factors influencing visual inspection
- To explain the place of visual inspection in relation to NDT
- To enable candidates to utilise a range of visual inspection equipment
- To meet syllabus requirements for CSWIP Level 2

Certification
